Reports of Smallpox Cases-Indiana Railway Indicted in Kentucky-The Death Record.

Special to the Indianapolis Journal. TERRE HAUTE, Ind., Feb. 8.-The labor demonstration to-day in the interest of the striking street-railway employes was not so significant itself as was the fact that Terre Haute did not see it. Three weeks of daily intimation that the demonstration would be the cause of a riotous outbreak served the purpose of intimidating the city until it came to believe that an invading army of lawless men would have possession of the streets. Women and children for several days had been warned in the household to keep off the streets and no doubt many timid men also took alarm. At noon Mayor Steeg asked the manager of the street-railway company to withdraw the

He denounced the newspapers for their hostile treatment of the strikers, and also said that since the strike began, three weeks ago to night, not a minister or priest had spoken a wore of sympathy for labor. The cars were not run out again after their withdrawal this noon.
